Re: Status of ANCO Engineering Inc. AS9100D Certification efforts

To whom it may concern,

The purpose of this letter is to summarize the status of the efforts by ANCO Engineering Inc. to obtain AS9100D certification with PRI Registrar.

Currently, the Stage 1 audit is scheduled in our system for May 8, 2024, and the Stage 2 audit is scheduled for June 3-6, 2024, both to be conducted by PRI Auditor Steve Somerville. After those audits have been conducted and closed out with positive recommendations for certification from the auditor and confirmed by the PRI office, PRI will be able to issue the AS9100D certificate to ANCO Engineering.

Sincerely,

*David Scatena*
